Executive Council Candidate 2017

Chemicals

Jimmy Towers

Jimmy Towers

You are part of an industry that is:

- A major contributor to the UK economy
- Has a £60 billion turnover in the UK
- Adds £20 million to trade
- Holds the key to driving our economy forward and securing the future for our families
- Helps maintain the high British trade mark of quality

This is all due to you; our highly skilled workers who are working to the highest health, safety and environmental standards. With over 60,000 members working across the main chemicals and pharmaceutical companies, both large and small as well as production, engineering and maintenance, supervisory, scientific research, administration, marketing and sales, management grades and so much more. But for all this to continue to thrive, I need your help.

Invested research in development is an investment in your skills and a chance to play a greater role in the global market, a position we need to pursue to remain relevant.

But we must not do this at the expense of:

- your financial security
- your job security
- your living standards

Competition from abroad puts added pressure on downsizing your pay and conditions, but I will stand with you to defend your rights and serve as a benchmark of quality, safety and standards for global industry.

At the heart of our movement is fairness, only together can we make sure our roles are rewarded.

I will work to:

- Take on unscrupulous bosses
- Engage in meaningful negotiation with those companies who acknowledge the importance of your contribution
- Encourage good industrial relations
- Maintain our ability to fight back should we be forced to
